MILWAUKEE DAILY SENTINEL.

VOLUME XV. MILWAUKEE, THURSDAY MORNING, MARCH 4, 1858. NUMBER 53.

THE DAILY SENTINEL.

THURSDAY MORNING, MARCH 4

The News.

We hear from Washington that Gen. Scott has taken prompt measures to forward supplies to our little army in Utah, and to notify Capt. Marcy, who was sent to New Mexico to procure horses and mules, of the design of the Mormons to cut him off.

Kansas and Lecompton continue to occupy the attention of Congress. The latest report from Washington intimates the hope that the Swindle will be defeated. We fear, however, that Federal patronage will turn the scale against Freedom.

An immense Democratic Anti-Lecompton meeting was held at Cincinnati, on Tuesday evening, in the same Hall and on the same "platform," where Mr. BUCHANAN was nominated for the Presidency.

The Republicans of Chicago achieved a brilliant victory at the Charter Election on Tuesday. The contest was the most animated and the vote the heaviest, ever known in that city.

Our Legislature makes but slow progress. Investigation is the order of the day and absorbs the time and attention of both Houses. The session bids fair to be an unusually long one.

A large and spirited meeting was held in this city, last evening, to take action against paying the claim of the contractors on the new Harbor.

The New York Produce Market, yesterday, manifested an improving tendency. Wheat and Flour were more active and higher; other grain quiet, and pork firm and steady. Money is very plenty at 4a6 per cent. on call. Our own produce market was also active, yesterday, and prices for Wheat tend upward. Money, however, is still scarce, and Eastern Exchange keeps up to 2a3 per cent. This cannot last much longer.

The weather, yesterday, was clear and cold; much more like mid-winter, than early spring.— A break up, however, is not wanted for some weeks yet.

The City Attorney.

This "prodigious" functionary, aggrieved by certain strictures in a late number of the *Sentinel*, pours forth his plaint in the columns of the *News*. Conceiving himself to be a very ill-used man, he charges "malice" upon the "editor of the *Sentinel*," and proceeds to tell the public when and whence that malice originated. It was, so says this veracious chronicler, in his successful defence of a suit brought in 1856 by Rufus King & Co., against the city, for certain printing done by them. Unfortunately for Major Foote's ingenious theory, the "editor of the *Sentinel*" knew nothing whatever of any such suit, and was not even aware that the "prodigious" labors of the City Attorney had defeated it till that officer published his victory to the world. But the Attorney finds further proof of "malice" in an "assault" once made upon him by the "editor" aforesaid. It is due to history that this affair should be impartially recorded. It was on the evening of the Republican Mass Convention in October 1856. A torch-light procession was winding its glittering way through the streets of our city. Near the Walker House corner, a group of spectators had assembled to look at the pageant. To this audience the Major, fired by Democratic zeal and Democratic liquor, was holding forth in terms of indignant denunciation against the Black Republicans, and hurling opprobrious epithets promiscuously at individuals of that party who chanced to be within hearing.

Then it was that, actuated by motives of the purest philanthropy, and anxious alike to preserve the public peace and protect the august person of the blatant Major from outrage or insult, the "editor of the Sentinel" approached this Boanerges, and in the blandest manner gently took him by the throat, and checked the flow of his voluble vituperation. It was this friendly interposition that the Major, laboring under undue, though not unusual excitement, construed into an aggravated "assault," and from that unhappy incident dates the "grudge, which he airs on all occasions. So far from cherishing any malice against him, our feelings in his regard are akin to those of Uncle Toby towards the buzzing fly. There is room enough in the world for both of us, though the Major, who occupies considerable space, thinks himself inconveniently crowded. If, however, the premises of the Major are all wrong, his conclusion is indisputably right.— He will write no more for the papers in reply to the *Sentinel*. Wisely resolved. Let him remember Dogberry and refrain from again writing himself down an ass. As to the threat of the *News* that not content with dubbing him "prodigious," it will apply some "still more pregnant adjectives" to his transcendant abilities and unparallelled services, we beg our neighbor to consider that it is in a fair way to exhaust its vocabulary, before it can do justice to such a City Attorney. It is to be feared, quite as much as to be hoped, that "we ne'er shall look upon his like again."

The Republican Triumph in Chicago.

The election in Chicago on Tuesday was a complete Republican Triumph, the whole Republican ticket was elected by 1,300 majority and the "bloody seventh ward" which has hitherto been strongly Democratic gives a large majority for Haines. Our Chicago Republican cotemporaries, are with good reason, jubilant at their success.

The following are the *majorities* in the different Wards for Mayor. We are unable to give the official vote for each candidate.

	HAINES.	BRAINARD.
Ward I.	360	
Ward II.	112	
Ward III.		51
Ward IV.		62
Ward V.	444	
Ward VI.	402	
Ward VII.	158	
Ward VIII.	110	
Ward IX.		6
Ward X.		216
Total,	1,586	285

Haines' majority 1,301.

The official figures will not materially change the above result.

The following is a list of the Aldermen elected Republicans in roman; Democrats in *italics*:

Ward I.—James Long, maj. 258.
Ward II.—C. H. Abbott, maj. 78.
Ward III.—*Levi J. North*, maj. 24.
Ward IV.—*Samuel Myers*, maj. 87.
Ward V.—J. D. Ward, maj. 444.
Ward VI.—John Von Horn.
Ward VII.—Henry Wendt.
Ward VIII.—A. J. Wright, maj 211.
Ward IX.—Benj. Carpenter, maj. 9.
Ward X.—*Andrew Eisenbacker*, maj. 210.

The whole Republican ticket is elected by 1300 maj.

The *Tribune* says, We are abundantly satisfied with the results, attained as they have been, against the enormous odds that stood opposite to our success. We went into the contest under a hundred disadvantages. Our party was partially disorganized and exceedingly disaffected.— Our leading men were to confident of a triumphant victory. We were opposed by a confident, defiant and utterly unscrupulous enemy, that had been prepared, by a long drill, lavish use of money, and the free play of all the base arts which the Sham Democracy so well understood, for an easy conquest. They came into the field better marshalled and disciplined, and more ably led than ever before. * *

We had an administration to defend and justify; while they could be lavish of promises for the future. But in the face of all, we are triumphant! The great battle in Chicago has been fought, and the tax-payers are victorious! Let all honest men rejoice!

Gov. Bashford, and Mr. Kilbourn's Testimony.

On Saturday, we briefly alluded to the current rumors respecting the nature of Mr. Kilbourn's testimony before the investigating committee.— Since then we have heard some further details. These go to exculpate Gov. Bashford from the charge of bribery. It is reported that Mr. Kilbourn's testimony distinctly denied any complicity between himself or the company—to the best of his knowledge and belief—and Gov. Bashford, by which the latter was influenced in signing the bill conferring the North Western Grant upon the La Crosse Company. Prior to the approval of that bill there was no intimation from himself, or any member of the Company as far as he had ever known or heard, to the Governor that he should receive anything from them. Mr. Kilbourn believed that the Governor signed the bill without expectation or favor or reward.

The Company, it would seem, afterwards resolved upon making the Governor a present.— An extravagant opinion prevailed in relation to the value of the grant. The Company felt rich. They were elated with their success. They were aware—or thought they were aware—that Gov. Bashford was not friendly to them. His whole course, during the pendency of the struggle for the grant, indicated that he felt little friendship for them, or confidence in the integrity of their purposes. They wished to gain his good will. The friendship of the Executive was important to them. It seems, therefore, to have been under the influence of motives of this character, that the Company, through Mr. Kilbourn, offered him, as a free and unconditional gift, $50,000 in La Crosse bonds.

The gift was accepted. To say the least, the acceptance was an impropriety. It placed the Governor in relations with a mammoth corporation, inconsistent with that impartial and independent position which should be occupied by the Executive of the State. But it was a sore temptation. Gov. Bashford was poor. The bonds were then regarded as equal in value to that amount in cash. The prospect was that they would improve rather than diminish in value. That amount of bonds was then deemed worth an annuity of from $3,000 to $4,000. These facts, it is true, are no excuse for the Governor; but, if correct, they are extenuating circumstances. They take away from the transaction the darker stains of corruption. They mitigate its character. It may well be doubted whether under like circumstances the great majority of men esteemed honorable in all the ordinary business of life—men of integrity in the usual relations of society—would not have done the same thing. Grant that Aristides would not. The mass of men are not cast in that mould; and the circumstances of this transaction, if the statements here made prove substantially correct, relieve Gov. Bashford from a great burden of the stigma of venality and baseness, which would rest upon his character in case that these bonds were delivered to him in pursuance of an understanding had anterior to his approval of the land grant bill.

At all events, as personal friends of Governor Bashford, and as members of the party which has largely confided in his integrity and honor, we sincerely hope that he will appear before the investigating committee at an early day, and explain, if possible, the charges now bruited about the State in regard to his approval of that bill, and the subsequent matters connected therewith.

It is difficult for us, after an intimate acquaintance of years with that gentleman, to believe that he would condescend to the perpetration of any act essentially base and venal. Other men, however, have fallen, as suddenly and strangely. But all the circumstances of his approval of the bill conferring the North Western Grant upon the La Crosse Company, are against the idea of his being influenced by the corrupt motives with which he has been charged. The bill which he vetoed, was one in the success of which the La Crosse Company felt a deeper interest than in that which became a law by his approval. The latter was conformed to all the objections of his veto. All the interests of Milwaukee and Madison, with those of the whole district of the State interested in the prosperity of the La Crosse Road, combined in urging him to approve it.— Nor was this all. The majority of his friends in the Legislature went over to the support of the bill. It had become a certainty that if he vetoed it, the representatives of the people would pass it over his veto. It was under these circumstances that he finally signed the bill; but we have always believed that could he have had any efficient support in the Legislature, however meagre, he would have vetoed it.

It will be a matter of deep regret with his friends, if it appears that he even accepted a present from the La Crosse Company while in office. It was not right. But as we have already said, the temptation was great. Let every man bring the circumstances home to himself. Here was what appeared to be a competency for life, offered freely, without condition. We cannot avoid the conviction, that thousands and tens of thousands, who will be ready to join in a popular clamor against Gov. Bashford, would succumb to a tenth part of the temptation. And yet there will be none more ready to unite in the cry of, "Stone him! Stone him!" than this very class of men. Before they condemn him, however— before the missiles of popular indignation are launched against him—we ask the people to suspend judgment for the time, to hear and weigh all the circumstances of the case, and then if the facts are against him—*let him that is without sin cast the first stone.—Madison Journal.*

The Lecompton Swindle.

WASHINGTON, March 3.

In a former dispatch it was stated on the authority of leading democrats, that the calculation was, that the Kansas bill would pass the House by 15 majority, but on the contrary leading anti-Lecomptonities are sanguine of its defeat, and are working industriously to that end.

At the sales of green and black teas, new crop to day, 6,000 chests were offered, and the prices realized fully sustained previous rates. Some 5,000 chests were sold at the rates. About one third of the blacks offered were withdrawn.

"THIRTY STUDENTS LEFT COLLEGE."—A few days since, the *Wisconsin* informed its readers that "thirty students had left Carroll College on account of fancied ill-treatment on the part of some portions of the Faculty." In relation to this the Waukesha *Democrat*, of Tuesday, says, "the *Wisconsin* man has been fooled by 'a gentleman from Waukesha.' We have made particular inquiries about the whole matter, and we have it from good authority that only *two* students have left the College. The suppression of the Philomathean Society, by orders of the Trustees of the institution, gave some of its members offence, and no doubt they considered themselves *victims* of persecution and martyrs to the tyranny of the Trustees. The majority of the members of the Society obeyed the orders of the Trustees, sooner than create any disturbance in the school. The number of rebellious students is not anything like thirteen, and some who at first felt aggrieved are now attending to their college duties as usual, and no doubt think the "second sober thought" best. That there should be any difficulty, however trivial, is to be regretted, as rumor always makes it appear ten times more alarming than the reality. Carroll College is going on as usual; the loss of a few students never killed such an institution."

THE WAUKESHA LADIES.—According to our Waukesha contemporaries, the ladies of that burg,—some of them at least—are determined to become noted. The *Republican* a short time since informed us that a new billiard saloon was being fitted up which was to be devoted, one or more days, in each week, for the special amusement of the ladies of that place, and the last number of that paper rejoices over the success of the project. The Saloon upon its first opening was thronged with young ladies who handled their cues very amusingly. Gallantry of course, will not permit us to express our views upon the propriety of this peculiar amusement for young adies.

INFORMATION WANTED.—Information is wanted of JOHN LUNN, who left his home in Milwaukee, in November, 1855. He is supposed to have gone on the Lake about the close of navigation, as a German boy reports having seen him employed on a vessel, in the Spring following.

Any information will be thankfully received by his parents. Address "John Lunn, Sandusky, Sauk Co., Wisconsin."

POLICE COURT YESTERDAY.—Christopher Ludwig, was fined $5 and costs, for being intoxicated and disorderly.

John Williams, fined $1 for being drunk.

John Schroder and Emeline Teus, were brought up on a charge of adultery, and case continued to March 4th for examination.

Thomas Makely, was examined on a charge of receiving stolen goods and acquitted.

VOTE OF CHICAGO.—The total vote of Chicago, at the Charter Election on Tuesday last, reached the surprising number of 16,128, some *five thousand* larger than every before. The Republican majority for J. C. HAINES, for Mayor, was 1,161. The entire Republican City ticket was elected by an average majority of 1,000. The next Board of Aldermen will consist 13 Republicans and 7 Democrats.

A RELIGIOUS PAPER ABOUT TO BE ESTABLISHED IN THIS CITY.—We learn from one of the gentlemen interested in the enterprize, that preparations are being made for the establishment of a religious and literary journal in this City. It is expected that it will be in operation in the course of a month or so.

☞ O. T. W. S. W. H. will be served with soup, made without regard to taste or expense, at the M. L. G. Saloon, by Brother Harry Bingham. Members, and all who are friendly to the cause, will be on hand at half-past 10 A. M to-day. By order.

P. S.—The J. A. H. Degree will be conferred, March 4th, 1858. H.

REMOVAL.—The Wisconsin Marine and Fire Insurance Co. Bank have removed to their new quarters in Mitchell's Block, at the corner of East Water and Michigan Sts., and will be open for business there this morning.

DEDICATION AT WAUKESHA.—Robinson's new Hall at Waukesha, is to be opened, for the first time, *this* evening. A pleasant time is expected and a goodly attendance looked for from this city.

DEFEAT OF THE ARMY BILL.—The *News*, referring to the defeat of the Army Bill, says:

But it were needless to multiply proofs that public sentiment has been ripening for just the measure that was proposed by President Buchanan, and which, by a few wayward Democrats, we confess, but mainly by republicans, has been crushed in the United States Senate.

The *News* is in error. The majority of those voting against the Army Bill were "Democrats."

FOR SALE.—A stock of groceries, with the fixtures, in one of the best located retail groceries in the city, is offered for sale at a bargain. See advertisement.

Harbor Meeting Last Night.

A meeting of Tax-payers was held at Concert Hall last evening, to express their disapproval of the action of the Common Council in appointing Mr. Medbury as a referee on the part of the City, to decide upon the justice of the Harbor Contractors claim.

C. K. Wells Esq., called the meeting to order, and nominated Peter Martineau, President of the meeting, and W. J. Langson, Secretary.

Messrs. S. M. Booth, J. Plankinton, and Wm A. Prentiss, addressed the meeting, explaining the unjust manner in which the appointment of the referee, on the part of the city was secured, and the necessity of the people's protesting against the consummation of the Harbor plot.

On motion a Committee of five, consisting of S. M. Booth, C. K. Wells, Esq., Dr. Heubschmann, Elisha Boardman, and Joel S. Kneeland was appointed to draft resolutions expressive of the sense of the meeting.

The committee reported the following preamble and resolutions, which were most emphatically and unanimously adopted:

WHEREAS, The Common Council of this city, after a long and patient investigation, decided that the Harbor Contractor was not entitled to more than $45,000 in city bonds, for work done and remaining unpaid for the Harbor, or less than one-half of the amount he claims:

AND, WHEREAS, The Common Council appointed Martin B. Medbury, as referee on the part of the city, to arbitrate, with two others— one chosen by the contractor, and the other chosen by those two—the question at issue, provided the contractor refused to accept the sum offered by the city, and to award the amount due said contractor, which award is to be final and conclusive on the parties:

And whereas, Mr. Medbury, without the knowledge of the majority of the Council who appointed him, had repeatedly expressed his opinion in favor of allowing the full amount of the contractor's claims, or $95,000 of City bonds.— Therefore,

Resolved, That Mr. Medbury, by this expression of his opinion was disqualified from acting as a referee in behalf of the city or representing its wishes and interests, and we are surprised that in such circumstances, he should have accepted the appointment.

Resolved, That in his selection of Mr. J. J. Tallmadge, as third referee, who had, at the same meeting which appointed him, petitioned the Council to pay the contractor the full amount of his claim, $95,000) Mr. Medbury has wantonly and shamefully disregarded and misrepresented the wishes of the Common Council, and of the people of this city; and that we call upon him to resign his appointment and refuse longer to be a party to a gross fraud upon the tax-payers of Milwaukee.

Resolved, That the people will have no confidence in the justice and fairness of any award which this board of referees, thus constituted, may make.

Resolved, That the people of this City will hold all the parties to this fraud, whether in the Council or out of it, to a strict account hereafter, that they will regard them as traitors to their honor and their interests, and will remember them both at the ballot-box and in the ordinary business of life, as men who will resort to tricks and treachery to accomplish that which cannot be done by fair and honorable means.

LIGHT GUARD CADETS.—This young and spirited Company were out for Street drill, last evening. They have made fine progress in their drill, and marched with great precision. They were under the command of their Captain, CHARLES H. TOWNSEND.

WOOD'S RESTORATIVE.—Of all the restoratives for the hair that have been invented, Wood's pre-eminently claims the first place. It will certainly restore the natural color of the hair, if the directions are followed for a sufficient length of time. It has also produced astonishing effects in bringing out a growth of hair where the head had been previously bald. Wood does not pretend that it will do this in all cases; and we think his candor is a good recommendation of the virtues which his restorative really possesses. If the roots of the hair are destroyed, no human power can make them grow again; but where there is any vitality left in the root, the restorative will soon renew the hair in all its pristine vigor. It has done this repeatedly, where all other remedies had failed. It is, therefore, worth while in all cases to make the experiment. For clearing the head of dandruff, and thickening and s renuthing the hair, it has no rival.—*Western Patriot*

LATEST NEWS!

BY MAGNETIC TELEGRAPH

XXXVth Congress—First Session.

WASHINGTON, March 2.

SENATE—The resolution presented by Mr. Douglas on Feb. 4th, calling for information on Kansas affairs was taken up.

Mr. Douglas proceeded to advocate the resolution, but at one o'clock was cut off in the middle of a sentence by the announcement of the special order, when the bill for the admission of Kansas was taken up.

Mr. Collamer continued his remarks from yesterday. He said the only choice allowed the people of Kansas, was whether they would have slaves or be slaves. He alluded to the territorial laws and the several successive Governors who were sent out to administer them, and who were summarily removed because they could not perform impossibilities, because they could not enforce the laws and yet do justice to both parties. He referred to the Lecompton Constitution, and said it was idle to resort to special pleading to hide that that instrument was never submitted to the people. If it had been they would have repudiated it at once and forever.— The President admits that the whole thing was a cheat and a delusion. He referred also to the new political dogma that slave property in its legal character and tenure, is precisely like other property, and the decision of the Supreme Court in the Dred Scott case. He would not deny that the Supreme Court might argue an opinion concerning slavery when the question was property, but he regretted that they should have taken advantage of their position to issue excathedra their endorsements of a political dogma; the endorsers of accommodation paper seldom find it a profitable business.

He then discussed the nature of property in man, contending that the only safety for Slavery was to make it local, and asking what will be gained by making Kansas a Slave State. The Free State people will soon gain the ascendancy here, even if Calhoun cheat them out of the Legislature now, and then when they refused to pass laws for the protection of such property, what will it be worth.

Mr. Pugh, of Ohio, gave notice that he should offer an amendment to Mr. Green's substitute, for the admission of Kansas and Minnesota together, that the people may alter or abolish their form of government in such manner as they may think proper, so that it be republican and in accordance with the Constitution of the United States.

Mr. Seward got the floor, and the Senate adjourned.

HOUSE—The House resumed the consideration of Mr. Seward's motion, to reconsider the vote, referring to the Committee of the Whole, the Senate bill authorizing the President to appoint any officers affected by the action of the Naval Retiring Board to their former positions.

Mr. Davis, of Mo., applauded the Retiring Board for their fearless honesty in purging the navy of rotten material. He objected to any replacement of these materials, and thought that the Administration would have much to answer for which should place a man of war under the command of an officer whom that board, endorsed by the last President and his Cabinet, had discarded as unfit for active duty.

Mr. Miles of S. C., contended that the decisions of that board, in some instances, were utterly repugnant at every sense of justice and fair dealing. The meanest criminal may look to executive clemency, but not those dismissed naval officers who were suddenly stricken down with their brilliant services wiped out by a single blow and now had no redress. He did not believe it necessary to resort to such extreme meanness.

Mr. Chapman, of Penn., said, that while he would not charge the Board with conspiracy and corruption, he would say that they were surrounded by influences of the most dangerous character. They were themselves benefitted by every vacancy made. By an inquisitorial process, they struck down gallant gentlemen amid the two hundred that fell under their prescription.

Mr. Sherman, of Ohio, opposed the bill because the aggrieved parties had opportunities for a fair trial before the Naval Court of Inquiry, and ought to be willing to abide by the judgment of their peers. The passage of the bill would make the Senate a court of error to revise the action of the Naval Board.

Mr. Millson, of Virginia, saw no propriety in entering into the merits of the Naval Board.— The action of that Board was condemned by the American press, by the sentiments of the American people, by the resolutions of State Legislatures, by the solemn judgment of Congress, by the deliberate though unconscious testimony of the Court of Enquiry themselves. He alluded to the harshness and haste with which the proceedings of the Court were conducted, adding that the officers never had a fair trial. Without concluding the subject, the House adjourned.

WASHINGTON, March 3.

HOUSE.—The House resumed the consideration of the resolution from the Senate, authorizing the appointment of any officers affected by action of the naval retiring board, to their former position.

Mr. Whitely argued in favor of the resolution, severely criticising the action of the naval board.

Mr. Bocock opposed the adoption of the resolution, contending that the proceedings of the board of inquiry were just, and that even if its decisions were reversed, many of its supposed victims who are now expecting to get back into the navy, will find themselves mistaken.

SENATE.—Mr. Hammond of South Carolina, introduced a joint resolution authorizing the Secretary of the Navy, to pay the officers and seamen of the expedition in search of Dr. Kane under Captain Harstein, at the same rate as has been allowed to the officers and seamen of Lieut. DeHaven's expedition.

Washington Items.

WASHINGTON, March 2.

The Senate in Executive Session, again discussed, without coming to a vote, on Mr. Cook's nomination as Postmaster at Chicago.

The War Department has received despatches from Col. Johnston, dated January 4th, that it is a matter of absolute necessity that supplies should reach him by the 1st June. Measures for that purpose have been taken by General Scott. His order, dated February 28th, directs that a train, to consist of at least two hundred mule wagons, shall be organized with the utmost dispatch, at Fort Leavenworth, to go immediately with transports from thence to Col. Johnston's command in Utah with commissary stores, men's shoes, and such other supplies as may be known to be much needed, with two extra mules to provide for casualties, to be taken for each wagon. The wagons and mules, and everything for the train, will be the best that can be procured at Fort Leavenworth or within convenient reach of it. Two companies of cavalry and infantry will act as an escort beyond Fort Laramie. The train will start as early as the 10th of March. In the order dated March 1st, to the commanding officer at Fort Leavenworth, General Scott directs that the following be sent to General Garland, in New Mexico, by Express.

Col. Johnston reports that the Mormons intend intercepting Capt. Marcy on his return with mules and horses, he was ordered to obtain in your department. Notify the Captain of this, and see that he is strongly escorted on his return march, and well provided with whatever he may require and you can spare.

The above orders from Gen. Scott were sent to Boonville, Mo., and from thence they are to go to their destination by express.

Capt. Marcy is expected to leave New Mexico about the 25th of March.

Anti-Lecompton Meeting at Cincinnati

CINCINNATI, March 2.

A large Anti-Lecompton meeting is being held to-night at Smith & Nixon's Hall, the same room in which Mr. Buchanan was nominated for the Presidency. Every seat is filled.

Hon Adams N. Riddle, who presided at the first meeting in the county, at which Mr. Buchanan's name was presented as a candidate, is Chairman.

Hon. Stanley Mathews, United States District Attorney, is now speaking. He has said that here, where the Cincinnati platform was adopted, we should renew our devotion to popular sovereignty. He defines popular sovereignty to be the principal that when Congress shall organize a Territorial Government, it should leave the people who are to live under it, the full and free exercise of self government, so far as is consistent with the Federal Constitution. Let who ever will, have popular sovereignty, we propose to remain on the platform. He contends that slavery is governed by natural laws, population, climate, soil and products. He is opposed to the Lecompton Constitution, as the rankest Congressional intervention, the vilest tyranny, and destructive to popular sovereignty. The people of Kansas have never fairly applied for admission under it. This matter has been decided by the highest democratic authority—that of Governor Walker and Secretary Stanton.

At 9 o'clock, the meeting was still in session. It had been addressed by Hon. H. B. Payne, Judge Johnson and others.

Resolutions were offered, tendering thanks to Douglas, Stewart, Broderick, Wise, Walker and Stanton. Also, declaring it the imperative duty of Congress to reject the pending application for the admission of Kansas under the Lecompton Constitution.

TEN THOUSAND DOLLARS worth of Dry Goods will be offered at Auction in the store room on west side of river, formerly occupied by J. L. Pierce, on Friday morning, March 5th. The said store will be closed after the 15th of this month, and the Goods must all be disposed of, for whatever they will bring. Also about one thousand pieces of Ribbons. Also fifteen hundred Hats and Bonnets. This I will warrant to be the largest sale of Dry Goods that will take place this Spring, and all who have any money and want to get Goods cheap, had better attend this sale, for I am of the opinion that there will be very few goods to be had at auction this year. MILWAUKEE:

THURSDAY MORNING, MARCH 4.

The Free Labor Cause in Missouri.

The Missouri *Democrat* rightly appreciates the debt which the prosperity of that State owes to the progress of free labor there, when it says :—"It is conceded on all hands, that the event which attracted to Missouri a larger migration than all other things put together, was the noble stand taken by the city of St. Louis at the last municipal election, in which the banner of free white labor was unfurled to the breeze, and working men from every section were invited to make this commonwealth their home, with assurance of respect and sympathy against those who would degrade their employment or drive them out from our midst. The tide of population which had been sweeping far to the north of us upon finding that this was not an ephemeral ebullition of temper, but a settled resolve on the part of those citizens who were solicitous about the future development of internal resource, and the building up of home enterprise, diverted its course and prepared to seek in the spacious area of Missouri, more congenial climes, richer lands and wealthier treasures, than could be found on higher parallels of latitude. The result has been an addition of many thousands to our population within the year past; and if no untoward event takes place, still other thousands will outfit in our markets and settle in the interior during the early spring months. We shall have in all probability an accession of twenty thousand families, or more than one hundred thousand persons, at the opening of navigation and the first breath of vernal air. Throughout the winter almost every county that presents favorable location has been traversed by pioneers of this migration, and the newspapers from abroad have reechoed the favorable report which they make upon our soil, temperature, and resources, as an enticing abode for the free labor of the land that has been thrown out of employ by late reverses elsewhere."

After expatiating ably upon the great advantages which Missouri has experienced in the development of her resources, in consequence of the noble stand taken by St. Louis in the Free Labor Cause, the *Democrat* continues :—' But if the inauguration of so auspicious an era be due to the firm enunciation of a free labor policy here one year ago, we must remember also that a repudiation of that policy now would cast down all these fair prospects even more readily than they have uprisen. Confidence in the future would be at once destroyed. The restless eyes of multitudes that had fixed upon this as the abode fitted for their industry and occupancy, would wander on to other regions where no doubts obscured their faith. The thousands and thousands who are gathering their families and their household-wealth ready to start, would settle back again to old occupations, and not venture into a land over which the cloud of degraded servitude and a repressing labor system has spread anew. If the triumph of April last wrought such a miracle of progress, the recision of that edict in April next, would reverse the wand, and undo the work of magic. This fact should be appreciated in its fullest bearing by all who now acknowledge the benefit that has resulted to us in the past, and who are willing to cooperate for extending still more the same advantage in the future."

Kansas will not Submit.

The time has passed, when the Administration can play with the people of Kansas. Too long have they submitted to Pro-Slavery outrages, and despotism, backed by the Federal Government. Forbearance has ceased to be a virtue; the People are aroused, and their blood boils with honest indignation, as each development of the President's treachery becomes apparent. To believe that they will submit to the consummation of the last great wrong which is now being carried out, is a supposition which no sane man will for one moment entertain. They have already been tyrarized over and oppressed beyond all endurance, and they will never submit to have a constitution forced upon them, which they have repudiated by their almost unanimous voice. If the Administration persist in carrying out the Lecompton plot there is no knowing what the result will be. Certainly it will be most disastrous to the peace of Kansas; yes, and to that of the whole country. The disaster may, and we hope sincerely that it will, be avoided; but our anticipations are not very sanguine. As an example of the determined spirit which pervades the public mind in Kansas at the present time, we copy the following extracts from the Press of that territory :

From the Lawrence Republican.

The Crisis.—The Kansas drama is fast drawing to a close. The persistant plan of tyranny approaches its consummation. For three years, the people of this territory have endured wrongs and outrages unparalleled at least, in American history; and now, the crowning act of despotism is about to be perpetrated. *The Lecompton Constitution will pass Congress.*

The question which the people of Kansas are now called to decide is, whether they will be freemen or slaves. The question of negro slavery has sunk into insignificance before this higher and deeper and wider question. If the Lecompton Constitution becomes the living and organic law of Kansas, then there is not a freeman left in Kansas. The forms of liberty may be left, but the essentials are gone; the form of our government may be Republican, but the essence is a despotism.

Never was the question of self-government, of popular rights, of liberty, more clearly presented to any people. There can be no compromise. It is either submit and be slaves, or *resist* and be *Freemen!*

From the Leavenworth Times.

No usurpationist will ever be allowed, by the people of Kansas, to take a seat, to which he is not fairly and honorably entitled. We have had enough of such transactions, and will countenance them no longer. And while we look with deepest anxiety and solicitude, to Congressional action on the Lecompton Constitution, we feel neither for the future of our State. For we know that, let come what may, no Pro-Slavery Legislature or officer will ever be allowed to assume the reins of power. Cost what it may, we stand to this, and will support it while a free voice is left to encourage action, or a free arm left to strike a blow!

Extension of Lake Navigation.—The Canadians are talking about two grand ship canals, to facilitate the lake navigation—one to connect lakes Erie and Huron, running from Rondeau harbor to the river St. Clair, 30 miles, and another from Georgian Bay to Toronto, 100 miles, 28 of which will be through lake Simcoe, to connect lake Ontario with lake Huron. Engineers have surveyed both routes, and have estimated that the first will cost three million dollars, and the other twenty-two millions. It is said that the connection of Erie and Huron by a ship canal, would save millions of dollars yearly in expediting the commerce of the upper lakes. The other canal cuts off Niagara Falls, and affords access to all the lakes from the St. Lawrence.

So says one of our Buffalo Exchanges.

A New Counter Blast to Tobacco.—Two distinguished clergymen—Rev. Drs. Tyng, Episcopalian, and Cox, Presbyterian—have taken recently very strong ground against the use of tobacco. Dr. Tyng, we understand, pronounces cigars to be the "Devil's playthings." Dr. Cox goes still further, and in old King James' style, declares tobacco to be a "hateful, offensive ptyalism, with concomitant dirt ineffable." It has been well observed that if the Devil could be killed by hard words, Dr. Cox would be a dead shot.

New Party Movement in Pennsylvania.

Preliminary steps have been taken at Harrisburg, for combining all the elements of opposition to the Lecompton policy, in Pennsylvania, into one party. After two conferences on the subject, a plan of action was agreed on, as thus stated by a correspondent of the Philadelphia *North American:*

"Some of the leading men of all the shades of political opinions held by the opposition were present. Among those were Stevens, Todd, Covode, Palmer, Cochrane, Casey, etc. At the first session they appointed a committee of seven. These were to report to an adjourned meeting, at half-past eight in the evening.

"The discussions were somewhat stormy at both sessions, but everything ended in a quiet and harmonious result. At the second session the committee reported, and after some discussion, a substitute was offered, and accepted by an almost unanimous vote, but few voting against it. This substitute embraced, but two points.—It recommends but two things to the consideration of the existing State Central Committee.—It advises it 'not to call a State convention before the first of July,' and to make the call address itself 'to all who are opposed to despotism and to the extension of human slavery.'

"The resolutions of instructions declare that every man, no matter what his antecedents or opinions upon any other questions, is not to give up any portion of those opinions. Each member of the party is to be asked to subscribe to but the one point. Every man is to hold his own sentiments upon all other points, and not to be responsible to his neighbor for them, nor to attempt to make the latter responsible for his.—I conceive this is the true starting point for the formation of a great and successful party. As long as the opposition continue to look back at antecedents, and inquire into the positions that A B and C have heretofore occupied, and to debate and discuss them, the certainty of victory will fade away into the dim distance."

Projected Confederacy of the British Provinces.

The Hon. Jas. W. Johnston, Attorney General, and Adams G. Archibald, Esq., Commissioners of Nova Scotia to London, were instructed on the 16th of June last, to confer with the Imperial Government, on the subject of a union of the British North American Provinces.

We give below the report of the Commissioners :—

Halifax, Feb. 6, 1858.

Sir—We have the honor to report for the information of His Excellency, the Lieutenant Governor, that, in pursuance of the instructions we have received from the Provincial Government, we brought the subject of the union of the North American colonies under the notice of the Colonial Secretary, during our recent mission to London.

In our interview which we had with Mr. Labouchere, this question was freely discussed.—He informed us that Her Majesty's Government had no desire to interfere with the determination to which the Colonies themselves might come on a point so immediately affecting their own interests; and that if they should be of opinion that union would advance their prosperity, the Government would oppose no obstacle to their wishes. This declaration of the Freedom of the Colonies to decide this important question for themselves, seemed to be all that could be desired from the Government.

We therefore consider that the question had been brought to a point at which the next step must be taken up by the Colonies; and that nothing more remained to be at present pressed on the consideration of the Imperial Government.

Signed,
J. W. JOHNSTON,
ADAMS G. ARCHIBALD.

To the Hon. the Provincial Sec'y.

In pursuance of this, the government of Nova Scotia has opened negotiations with those of the other provinces, for such confederation, and the subject is still under consideration.

While we are blindly seeking new Slave States among the swamps and fevers of the Tropics, we are repelling from us forever a Northern Realm, in whose healthful climate, intelligent and moral population, rich Mines and Fields and Forests, are the germs of a hundred Free Republics.—Canada might have been ours, but that she dreads the curse of a Slavery Extending Government. Talk to the Canadian of the superiority of American to British rule, and he will point you significantly to the flock of black Fugitives that is yearly pouring in to seek shelter from American Liberty under the flag of the British Queen; or will tell you that he has no disposition to see the iniquities of Kansas re-enacted on the banks of the St. Lawrence.

But as the Provinces grow in wealth and power, they need consolidation; and debarred from our Union, they are building up a Union of their own. It will be our own fault if, instead of seeing the Stars and Stripes waving over a linked succession of Free States extending from here to the North Pole, we shall see there, twenty years hence, a formidable Empire, alien to, and rival of our own.—*Albany Journal.*

Grace Church at Madison.— The *Patriot* says, yesterday we had the pleasure of seeing the inside of the new episcopal church. It is decorated in a light and graceful style, and the stained glass windows have also appropriate emblems, which are seen at a mellow light. There is a rich and unpretending plainness about the neat ornamental work of the ceiling, and the whole appearance of the inside view is aptly calculated to give the thoughts a quiet and devout complexion.

The architect of this church has had an elegant place of worship full in his conception during the creation of the plan and now as it stands in simple dignity fresh from the hands of its artificers, it is prolific of thoughts relating to the beautiful and good. We cannot be made to believe that any city or place is going to the dogs, when one congregation has had the energy and enterprize to erect such a credit to the city, and so respectable a place in which to render the most honorable services of their lives.

False Gas Meters.—In a communication to the New York *Times*, Robert Prince, of Brooklyn, asserts that all the meters made in that city, for the gas companies, are designedly constructed to indicate a consumption of about fifteen per cent. of gas greater than the real amount.—Some years ago he became interested with a manufacturer of gas meters, which were made with indexes that truly indicated the amount consumed, but the gas companies would not purchase these, consequently the manufacturer was obliged to give up the business or attach false indexes to his meters. He now works to the order of these companies.

A Minister and His Wife Arrested for Highway Robbery.—The Rev. Samuel Smith, master of the Collegiate School at Clifton, and formerly second master of Bishop's College, England, and his wife have been arrested for highway robbery and attempted murder. It appears that the wife of Mr. Smith was a Miss Mills, and about nine years ago, before her marriage, numbered among her suitors a Mr. Leach, contractor. The match was broken off and Mr. Leach married another lady, who died some time since. Mrs. Smith, having ascertained that Mr. Leach had become a widower, addressed a letter to him, in which she stated that her husband had recently died, and invited him to review the intimacy which formerly existed between them.—After several letters had passed, Mr. Leach agreed to meet the lady at Bristol on Sunday, 31st of January. They met at the Bristol station and took packets for Yate, where they alighted, and Mrs. Smith proposed to cross the common to her residence, instead of taking the high road. The station master advised against this, on account of the darkness of the road; but finding her strenous, took a lantern and accompanied them to the point from which they would have to cross the common. In a short time, the lady professed to have lost the way, and in a few minutes after Mr. Leach was assaulted by a man. Being a strong man, he, however, got the better of the assailant, and his cries for aid were heard by two of the rail road men who came up. The assailant was found to be the Rev. Mr. Smith, the husband of the lady; but he managed to make his escape. The detective force proceeded to the house of Mr. Smith and arrested the parties. On their track were found a widow's cap and a six-barrel revolver pistol, loaded and capped, near the spot where the struggle took place. In searching the house, a parcel containing a shirt, collar, satin scarf and pocket handkerchief, all marked with Mr. Leach's name was found.—*Boston Traveller.*

Tunnel between England and France.

For some months past we have heard occasionally of a proposal to construct a tunnel under the English Channel, to connect Britain with France; and the last mails bring us a definite assurance that the Government of the latter country is formally considering the subject. We all remember how astonished mankind was when an electric cable was spoken of as a means of sub-oceanic communication between these countries; looking at the labor and risk of this proposed roadway, the latter project is incomparably more surprising than the former. "Can it be done? is the first and spontaneous enquiry.—And the equally spontaneous answer is, can it be doubted? In this day of ocean telegraphs, Victoria bridges, and Leviathans, why may not men ride under the sea from Dover to Calais?

The practice of tunnelling is an old one. The Lake Copais in Boeotia, was drained by a tunnel or tunnels, cut through Mount Ptoon to the sea, a distance of four or five miles; and, this stupendous work was old in the days of Alexander the Great. Herodotus tells of a tunnel in the island of Samos, cut through a lofty mountain for a distance of seven *stadia*, that the city might be supplied with water. Near Naples there is a tunnel through the hill called Posilipo, three quarters of a mile long, and wide enough to admit of two carriages. This cutting is as old as the Emperor Tiberius. In the reign of the Emperor Claudius, the Lake Fucimes was drained into the river Siris, the tunnel being about three miles long. In England, tunnelling was introduced with canalling; that is to say tunnelling of any moment.

In 1776, Brindley, the famous canal constructor, formed the Harecastle tunnel on the Trent and Mersey Canal. This was 2,880 yards long, and cost £8 10s 8d sterling a yard. Brindley was eleven years at the work. In 1822, Telford made a parallel tunnel in three years. We would also mention the Regent's Canal, London, which runs under Islington for three quarters of a mile; the underground cuttings in the famous Bridgewater Canal, said to be, in all, some eighteen miles long; the Marsden tunnel in the Huddersfield Canal, 5,451 yards long; the Sapperton tunnel in the Thames and Severn Canal, two miles and three-eighths long; and the tunnel on the Thames and Medway Canal, which is two miles and a furlong in length. But *the* tunnel is that under the Thames; for, though the work is by no means so long as many others, yet looking at the difficulties in the way, it is held to be one of the greatest triumphs of human ingenuity ever achieved. An attempt was made to excavate from Gravesend to Tilbury in 1804, but it proved a failure. In 1823, Sir I. M. Brunel projected the work now known as the "Thames Tunnel." In 1826, he cut under the river. In 1827, the river broke in, and caused great delay.

In 1828, it again broke in; many lives were lost, and it was feared that the undertaking must be abandoned. Meantime the funds were exhausted, and the attempt was not renewed till 1835, when Government advanced the money necessary for its completion. No time was now lost, and on the 13th of August, 1841, the triumphant engineer passed from shore to shore.—This tunnel is 1,200 feet long, and was nearly twenty years in building, and cost between six and seven hundred thousand pounds, a much smaller sum than that required to build London bridge, which spans the stream two miles further up.

To pass from the era of Canals to this age of Railways. We have before us a list of forty railway tunnels in Britain, the shortest of which is a quarter of a mile long. But not to dwell on details, a writer in the last number of the *Quarterly Review* states that there are seventy miles of tunnelling in the United Kingdom; and to show us how mighty difficulties can be overcome, he makes the following statement :—

"One of the most deliate pieces of tunnel surveying and underground building was executed at Glasgow, on the short branch railway connecting the Garnkirk Railway with the Buchanan street terminus of the Caledonian Railway. It was found necessary to pass by means of a tunnel 400 feet in length, under the Monkland Canal, and over the tunnel of the Edinburgh and Glasgow Railway. There was barely space for the purpose, the floor of the one tunnel being only ten feet above the roof of the other. But to prevent the upper erection from resting heavily upon the lower one, arches of seventy feet span were constructed, on which the walls of the upper tunnel were supported, so that the entire weight was borne by the solid ground on either side. The arch of the tunnel was elliptical, and formed of bricks composed of a mixture of common and fire clay; and in order to give additional strength, an inverted arch of the same materials was turned below the rails. All this performed underground; and, during its progress, the difficulty of execution was increased by the breaking in of the waters from the canal above. But this too was successfully mastered, and the tunnels now stand tier above tier, under the bed of the Monkland Canal. A similar delicate piece of work was executed on the North Midland Railway at Bullbridge, in Derbyshire, where the line at the same point passed over a bridge which here spanned the river Amber, and under the bed of the Cromford Canal. Water, bridge, railway, and Canal, were thus piled above the other four storeys high."

We have written thus far to illustrate how our Engineers have hitherto grappled with and surmounted extraordinary obstacles; and from their constant triumphs we incline to argue in favour of the tunnel from England to France. No doubt the work contemplated is greater than any yet attempted in the history of the world; but engineering, learning, skill, and experience have also made giant strides. Meantime, men are pondering the subject. Thus, at a recent meeting of the Philosophical Society of Glasgow, a Mr. Young read a paper, in which he came to the conclusion, that the idea was practicable.—His notion, however, is not to cut under the bottom of the channel, but to lay a tunnel of iron upon it, a thing which he thinks can be done for the sum of three and a half millions sterling, and in a comparatively short time. This proposal, to say the least of it, is most ingenious. To say more at this stage of the business would be presumptious. We name Mr. Young's plan to show that scientific men are busy. Let us hope that the scheme may be found practicable, and that these nations so naturally allied, may be brought practically into contact by some such expedient. This done, and the Atlantic spanned, the nineteenth century shall have witnessed two wonders more stupendous than any known in any preceding age. And yet with so much achieved, science shall only be beginning her work, and men receiving an assurance that after ages shall witness undertakings so great as to dwarf all ours, and enable our descendants to speak of this as the day of small things.—*Toronto Globe.*

☞ The Washington Correspondent of the *Courier & Enquirer* tells a good story of Gen. Scott :—

"The House has lately adopted a resolution cutting off from the privilege of the floor all persons, except Justices of the Supreme Court, Governors of the States, officers of the House, &c. Yesterday, while the House was in session, a tall, stout, grey haired old man, dressed in very plain clothes approached the principle entrance to the hall, and evidently not aware of the new arrangement attempted to enter. He was stopped by the door-keeper, who enquired if he was a Chief Justice or a Governor. "No, sir," was the answer, "but by a resolution of Congress, all officers of the army who have received the thanks of Congress are entitled to the privilege of the floor." "Are you an officer of the army?" asked the door-keeper, looking with some doubt at the stalwart old man. "I am sir; my name is Scott—Winfield Scott, of the United States army." The manner of the door-keeper underwent an instantaneous change, as he very politely informed the General of the repeal of the resolution which gave him the right to the floor. "But," said he, "pass in General, I will take the responsibility myself." "No, sir," was the answer, "I do not wish to violate any rule, sir; I will go to the gallery;" and the brave old man, whose name is synonymous with the military glory of the United States, climbed the long range of stairs, and took his seat in the crowded gallery, alone and unnoticed.

Life in Broadway.—At an early hour Wednesday evening the travelers in Broadway were startled by the appearance of a runaway horse attached to a buggy, in which a man was seated. The horse dashed up the street at so furious a rate that a serious accident seemed unavoidable, so thronged was the thoroughfare with vehicles of all descriptions, and an excited crowd followed after to witness the result. The interest and alarm was greatly increased by the fact of a little boy being discovered athwart the axletree of the vehicle, to which he steadfastly clung all the while. After many hair-breadth escapes to man and beast, the runaway was suddenly brought up standing in front of the St. Nicholas Hotel, by coming in contact with an express wagon, and before he could take a fresh start he was seized.

The driver was not hurt, and the little boy, on being taken from his curious position on the axletree, was found uninjured, though greatly frightened. Subsequent inquiries showed that the little fellow had been run over by the driver of the buggy, who, without stopping to ascertain the consequences, and in order to evade arrest, instantly put the whip to his horse so vigorously that the goaded animal refused control and dashed away. The little boy who had been run over was not injured, however, and leaping suddenly up grasped in his fright the axletree, to which he clung as for life until rescued as above described.—*N. Y. Burning of the Steamer H. A. Jones.

About half past one o'clock Saturday afternoon, the steamer "H. A. Jones," Capt. Wm. Knight, of the Cincinnati and Marrietta Packet Line, started from this city for Parkersburg, having on board 25 passengers and a good load of freight. About 10 o'clock at night, when about a mile below Augusta, passing through the "Augusta Shute," some 40 miles from this city, the second Stewart, John Boyd, went into the pantry for the purpose of preparing the usual 12 o'clock lunch for the crew, and in attempting to fill the burner under a coffee urn with alcohol, fire was communicated to the tin can containing the fluid, which burst in an instant, scattering the alcohol over the room, enveloping the whole interior in flames.

The cook of the boat, James Wilson, was sitting in the pantry reading, and his person, as well as that of Boyd, the stewart, were covered with fire, the latter being almost enveloped in flames. The face, hands, arms, breast and back of both were very badly burned, and Boyd is supposed to have been badly burned internally. They were taken to Augusta, and put under medical care, where they still remain.

The watchman of the boat heard the explosion, and immediately gave the alarm to the pilot at the wheel, John Case, who headed the boat for the Kentucky shore, about 75 yards distant, and run the bow aground within 15 yards of the bank of the river. The passengers had all retired for the night, but were quickly aroused from their beds, and notwithstanding the rapid progress of the flames, which spread over the entire upper part of the boat in fifteen minutes, all were saved by the small boat. Fortunately the only woman on board was the chambermaid, who was rescued from the water when almost exhausted. The men jumped into the river, and were picked up by the yawl and conveyed to the shore.—*Cincinnati Gazette.*

The Effect of the American Peaceful Bombardment of Japan.—While the effect of British and French cannon to open the empire of China to the world, remains yet to be seen, it is quite certain that two or three little American weapons of peace, with which Commodore Perry quietly bombarded the Empire of Japan, are effectually unclosing its hitherto sealed doors. It is an old and wise saying that the pen is mightier than the sword. Commodore Perry has given us the data for a new and equally wise saying, that the railroad and the telegraph are mightier than the cannon. A model railroad, steam engine, and electric telegraph were the weapons with which the Commodore bombarded Japan, and if the news by the last arrival from Europe be true—and there is no reason to doubt it—Japan has been taken by steam and electricity, and that, too, with both on the smallest scale to which they could be reduced. The Japanese saw the little model locomotive whiz over its miniature railroad, saw the electric wire open its mouth and heard it talk, and have, it appears, come to the conclusion that there is more "go ahead" in steam and electricity, than in powder and ball, and have accordingly sent one of their Princes of the Blood, even Prince Tzi-Kusen, the nephew of the Emperor of Japan, to the land which steam and electricity drive ahead, and where Japan may learn to go and do likewise.—Prince Tzi-Kused is now on his way here, having according to report, embarked at Simoda in December last, and it behooves us to give him a fitting reception on his arrival. A Turkish Admiral is good, but a Prince of Japan is better, for Turkey has seen us on our soil as we are, but Japan has not, and commerce demands that we should give Japan the precedence of guests. It is no small glory for American enterprise that it has, through Commodore Perry, introduced Japan as the guest of Europe and this country, and we hope that the effect of the Japanese visit will be to cover the land of Japan with the perfect works of those models of the weapons of peace, with which Commodore Perry first stormed her forts.—*N. Y. Courier & Enquirer.*

The Dry Goods Trade.

The New York *Evening Post* of a recent date says:

Quite a number of southern buyers have arrived, and they are well treated by our merchants, being allowed in most instances their usual credits. Although our merchants talk of a fair business and all that, there is no disguising the fact that the trade is at present painfully dull; indeed, it is very evident that not over one-third of the business, as compared with last spring, is being done.

From the West the accounts are of a more encouraging nature, but much is to be done before that trade can return to its former regularity.—The cold term has tended to restrict business somewhat—perhaps the chief reason why the trade this week has not increased in activity.

The business in foreign goods is particularly quiet; purchasers step forward with extreme caution. The importations being very slight, dealers look for a good healthy trade next Fall at remunerative prices.

REDUCTION IN THE PRICE OF THE
BADGER STATE SAFES!
NOT TO BE SURPASSED in any respect by any safe manufactory in the whole country, we have just completed our arrangements for manufacturing the
BADGER STATE SAFES,
Upon a larger scale than we have ever done heretofore by the introduction of new machinery, and by increasing our manufacturing facilities.
FIRE & BURGLAR PROOF!
Our SAFES, as is well known, are more substantially constructed, and more handsomely finished than any other safe manufactured in America, and consequently it has cost us more in getting up our safes than any other manufacturing establishment in the country. But notwithstanding this, we are now enabled to offer our safes to the public at
AS LOW PRICES!
As any other safes manufactured. The following are the former and present prices of some of our safes:—

No. 1 Badger Safe, present price	$125,	former $150.
" 1½ " " "	160,	" 185
" 2 " " "	200,	" 225
" 3 " " "	275,	" 300

and so on.
The severe tests which the Badger State Safe has stood, both in this city and elsewhere, establishes its proof against fire and water for the protection of valuables.

BRAHMA DEMOCRACY.

Among the very best parodies which have appeared upon Emerson's "Brahma," we think the following from the Boston *Transcript* is entitled to pre-eminence:

If the true vo'er think he votes,
Or if the vote think it is cast,
They know not well Protean coats,
I vote, and cheat, and beat at last.

Missouri State to me is near,
The truth and falsehood are the same,
The promised leaves to me appear,
And one to me are shame and fame.

They reckon ill who vote me out;
When me they fly, I am Calhoun;
I am the counter and the count,
All office held with me's in tune.

The black South prowls in my abode,
And pines in vain the swindled North;
But thou, weak kisser of the rod!
Find me, and drain hell's fiercest broth.

DESTROYING THE ROMANCE.—A capital story is told of a young fellow, who, on Sunday, strolled into a church, and during the services, was electrified and gratified by the sparkle of a pair of brilliant black eyes, which were riveted on his face. After the service, he saw the possessor of the witching orbs leave the church alone, and emboldened by her glances he ventured to follow her, his heart aching with rapture. He saw her look behind, and fancied she evinced some emotion at recognizing him. He then quickened his pace and came up with her; but we will permit the young gentleman to tell the rest in his own way:

"Noble young creature," thought I; "her artless and warm heart is superior to the bounds of custom."

"I reached within a stone's throw of her; she suddenly halted and threw her face at me. My heart swelled to bursting. I reached the spot where she stood. She began to speak and I took off my hat as if doing reverence to an angel."

"Are you a pedlar?"

"No, my dear girl," that is not my occupation."

"Well, I don't know," continued she, not very bashfully, eyeing me very sternly. "I thought when I saw you in the meeting house, that you looked like the pedlar who passed off a pewter half dollar on me about three weeks ago, and I was determined to keep an eye on you.—Brother John has got home, now, and he says if he catches the feller he'll wring his neck for him, and I ain't sure but you're the good for nothing rascal, after all."

A RECKLESS MAN.—A man named Bill Farr, was killed on last Christmas day, at Tehama, California. Bill was a notable character in his way. The Red Bluffs *Beacon* says of him:

"Our readers will remember an advertisement that appeared in our paper last spring, stating that Bill Farr would fight a grizzly bear, single handed, on the 4th of July, at Tehama. His life seemed of no consequence to him. We have frequently heard him remark that he would as soon be killed as not; and on one occasion we actually know of his standing up very coolly with a person as reckless as himself, each taking a shot at the other's hat, a distance of fifty steps, as it remained on his head. The result was that Bill's hat was shot through, and a small bunch of hair cut away, while the skin on the other man's cranium was laid bare for three or four inches by Bill's half ounce ball. Bill was a great terror to the Indians, having killed a great many in his time; some of whom, as he said himself, he shot to see them fall."

AN INTERESTING SCENE.—Mr. C. C. Tracy, agent of the New York Children's Aid Society, arrived in this city yesterday with a cargo of seventy girls and boys, and a number of young women seeking employment. The girls and boys were of all ages from three to sixteen years, and were quite as intelligent looking as the average of children of the same age. They were taken to the M. E. Charge, for distribution, at 8 o'clock in the afternoon. The church was densely crowded. After prayer by the Rev. M. Winans, and a brief address by Mr. Tracy, the distribution began, and was not concluded until night. No indentures were given, but no one was permitted to have one of the children who could not furnish satisfactory references as to character, and ability to support it. Farmers had the choice of the boys, and with others proceedence was allowed persons without children. The scene was highly novel and interesting, and occasionally so touching as to bring tears into the eyes of many of the spectators. The demand for the children was so unexpectedly large that another cargo will be immediately ordered. —*Layfayette Journal, (Ill.,)* 26th.

PROF. DE GRATH'S ELECTRIC OIL.—Boy taken off his crutches in twenty minutes:

ALEXANDRIA, VA., July 14, 1856.

Prof. De Grath—Dear Sir:—My son had his foot badly cut and swollen from sticking a nail into it, and was totally unable to walk without a crutch, when, by one application of your Electric Oil, he was immediately cured, and able to walk without his crutch in 20 minutes. I believe he was saved from being lame thereby. I recommend your Oil to the afflicted. Yours, truly,
JOHN ARNOLD, Hatter.

Rheumatism, Neuralgia, and all pains cured at once by this great Oil. Beware of counterfeits. Be sure to get DeGrath's Electric Oil.

A RETIRED PHYSICIAN,
75 YEARS OF AGE,
WHOSE SANDS OF LIFE have nearly run out, discovered while in the East Indies, a certain cure for Consumption, Asthma, Bronchitis, Coughs, Colds and General Debility. The remedy was discovered by him when his only child, a daughter, was given up to die. He had heard much of the wonderful restorative and healing qualities of preparations made from the East India Hemp, and the thought occurred to him that he might make a remedy for his child. He studied hard and succeeded in realizing his wishes. His child was cured, and is now alive and well. He has since administered the wonderful remedy to thousands of sufferers in all parts of the world, and he has never failed in making them completely healthy and happy. Wishing to do as much good as possible, he will send to such of his afflicted fellow beings as request it, this recipe, with full and explicit directions for making it up, and successfully using it. He requires each applicant to inclose him one shilling, three cents to be returned as postage on the recipe, and the remainder to be applied to the payment of this advertisement.

CAUTION.—I have no son in law authorized to send my recipe, as has been advertised. feb25g84d&wlm

Private and Confidential Medical Advice.
AT THE MILWAUKEE Venerian Hospital, established for the cure of Syphilis, Seminal Weakness, and the infirmities of youth and maturity, by Dr. Barnes.
Dr. BARNES takes pleasure in announcing to the citizens of Milwaukee and other places, that his office is at No. 12 Wisconsin Street.
READ AND REFLECT.—The afflicted would do well to reflect before trusting their health, happiness, and in many cases, their lives, in the hands of physicians ignorant of this class of maladies. It is certainly impossible for one man to understand all the ills the human family are subject to.
YEARS OF PRACTICE, exclusively devoted to the treatment and study of Syphilis, Gonorrhoea, Gleet, Stricture, effect of solitary habits, ulcers upon the body, throat, nose or legs, pain in the head or bones, and all Mercurial Affections, and all impurities of the Blood, whereby the constitution has become enfeebled, enables the Doctor to offer relief to all who may place themselves under his care.
Dr. B. makes no charge for short consultations.—Those requiring much advice should enclose a small fee sufficient to compensate for the time required to write the answer.

DYSPEPSIA AND FITS.
DR. TRACY DELORME, the great curer of Consumption, was for several years so badly afflicted by Dyspepsia, that for a part of the time he was confined to his bed. He was eventually cured by a prescription furnished him by a young clairvoyant girl. This prescription, given by a mere child while in a state of trance, has cured everybody who has taken it, never having failed once. It is equally as sure in cases of Fits as of DYSPEPSIA. The ingredients may be found in any drug store. I will send this valuable prescription to any person on the receipt of one stamp to pay postage.

ONE DOLLAR
WILL BUY
ONE OF THE BEST PURGATIVE and Liver Medicines now before the public, namely DR. SANFORD'S INVIGORATOR, or LIVER REMEDY that acts as a *Cathartic*, easier, milder and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject the morbid matter, then on the stomach and bowels, to carry off the matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most Cathartics. It strengthens the system at the same time that it purges it, and when taken in moderate doses will strengthen and build it up with unusual rapidity.

SANFORD'S LIVER INVIGORATOR!

DR. SANFORD'S INVIGORATOR is compounded entirely from new articles of medicine, viz: Gums. Some idea of the strength of these gums may be formed when it is known that one bottle of the Invigorator contains as much strength as one hundred doses of Calomel without any of its deleterious effects.
Though possessing rare medicinal powers, these Gums have been but little known to physicians, and never used in their prescriptions until used in the form of the *Invigorator*, which met with such unprecedented success as to induce the proprietor to offer it as a family medicine tried and known in its effects. It has rarely ever failed to cure Liver Complaints in their worst forms.
INDIGESTION being caused by a deranged Liver is cured when the Liver is excited to action.
JAUNDICE is caused by the improper action of the Liver, and as a proof that the Invigorator relieves this disease, let any one troubled with Jaundice take the Invigorator regularly one week, and their skin will begin to assume its original color.
COSTIVENESS can be permanently cured by the Invigorator. Take it in small doses on retiring, and it assists nature in her operations. By gradually diminishing the dose, the bowels are left in a healthy and active state, and work as regularly as clock work.
SICK HEADACHE is very soon relieved by taking a double dose of the Invigorator, which corrects all acidity and sourness of the stomach.
For an overloaded stomach it has no equal, as it relieves all oppressive or uneasy feeling after eating heartily. For a *family medicine* generally, all who use it speak in the highest terms.
DR. SANFORD'S INVIGORATOR came to us recommended to us a cure for Liver Complaints, and all diseases arising from a diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything edible without trouble, while before nothing but the lightest food would digest, and often that gave pain. Now what we want to say to all our readers is, if *Liver Complaint* or *Dyspepsia* trouble you, do not fail to try this the greatest remedy in the world.—*State Fact.*
We take infinite pleasure in recommending this medicine as a preventative for FEVER and AGUE, CHILL FEVER, and all FEVERS of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.
There has never been tried in our family a remedy which has met with such unbounded success in the cure of diseases incident to children, as DR. SANFORD'S INVIGORATOR; nor is it alone for diseases of children that we use it; for it acts as a Cathartic so mildly and gently, and seems to renovate the system so thoroughly, that we think we are doing a service to all in advising them, when they need medicine, to try this remedy. There are cases that have come under our notice where great benefit has been received in diseases of the Liver, Stomach and Bowels, where all other remedies failed to give relief. It has become so useful in our family that we will not be without it.—*Jacksonville, Ala. Republican.*

THE GREATEST
MEDICAL
DISCOVERY
OF THE AGE.
MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures
EVERY KIND OF HUMOR,
FROM
The worst Scrofula down to a common Pimple.
He has tried it in over eleven hundred cases, and never failed except in two cases, both thunder humor. He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.
Two bottles are warranted to cure a nursing sore mouth.
One to three bottles will cure the worst kind of pimples on the face.
Two or three bottles will clear the system of biles.
Two bottles are warranted to cure the worst canker in the mouth or stomach.
Three to five bottles are warranted to cure the worst kind of Erysipelas.
One to two bottles are warranted to cure all humor in the eyes.
Two bottles are warranted to cure running of the ears and blotches among the hair.
Four to six bottles are warranted to cure corrupt and running ulcers.
One bottle will cure scaly eruptions of the skin.
Two or three bottles are warranted to cure the worst kind of ringworm.
Two or three bottles are warranted to cure the most desperate case of rheumatism.
Three to four bottles are warranted to cure salt-rheum.
Five to eight bottles will cure the worst case of scrofula.
A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.
ROXBURY, MASS.
DEAR MADAM:—The reputation of the Medical Discovery, in curing all kind of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful Druggists in the country are unanimous in its praise.
In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of those diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother
NURSING SORE MOUTH,
is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers; and the Medical Discovery becomes a fountain of blessings to your husband and household.
In the more advanced stages of
CANKER
it extends to the stomach, causing
DYSPEPSIA,
which is nothing but canker on the stomach; then to the intestines and
KIDNEYS,
creating a sinking, gone feeling, and an indifference even to the cares of your family.
Your stomach is
RAW AND INFLAMED,
your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follow a train of diseases which the Medical Discovery is peculiarly adapted to
CURE:
Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you retire, irregularity of the bowels, and also, that most excruciating of diseases the
PILES.
How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "An ounce of prevention is better than a pound of cure." In the
MEDICAL DISCOVERY
you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly,
DONALD KENNEDY.
